Thankfully people are making a stand on this! It is absolutely appalling that it has gone on as long as it has!

Our businesses can't take all this unnatural weather and the repairs are devastating municipalities.

I relocated back to NH after a short few miserable years living in VT, the tax and Spend state. Climate Change and Renewable Energy brainwashing were just a few of the reasons I left that ultra-liberal/progressive state. The push for more 5G towers and wifi on school buses, WTF is the Dem supermajority legislative body thinking? Good thing the CT River keeps us separated from VT.

I am glad to be back in the Live free or Die state and have been fighting to keep it that way. This bill gets support. Join your county NH GOP organization and get involved. Voices do make a difference to stop tyranny on all fronts.

Thank you for finally standing up to the military industrial complex who are poisoning the beautiful world we live in. I know if the majority of the public were aware of what was being sprayed on them they would all stand with you on this bill! God bless you all 🙏

Why hasn't EVERY state passed a bill like this and why aren't people aware that limiting sun exposure is robbing us of essential vitamins?

There should not be a need for this law but not everyone is a god person

Like · Reply · 1 · 1w

**Micah Coffey**

It's going to take more than one state but it's a start. [https://zoom.earth/maps/satellite/...](https://zoom.earth/maps/satellite/)

**Wendy Town Farms**

I'm so glad this bill is coming up. It's unbelievable that so many of my fellow farmers can spend every siii day outside and not put two and two together. It is so frustrating enduring these abnormal weather patte and being gaslit by the Mass Media Climate Change Crisis Narrative. There's no doubt that humanity is destroying our environment in many ways, but the geo-engineering is a HUGE part of this as well and n to STOP! Thank you for standing for the health of the people and our environment.

**Millie LaFontaine**

We need to prohibit the intentional release of polluting emissions in New Hampshire, whether by cloud seeding, weather modification, excessive electromagnetic radio frequency, or microwave radiation. If we haven't learned that there are unintended consequences to most releases of novel substances or organ into our air, soil, or water by 2024, we will never learn!

**Julie Plourde**

I am so pleased to see this Bill in the House . It's a glimmer of hope to we the people of NH.

So tired of looking up at the trails above my home and over the Lake that is our towns water supply. The spraying of our blue sky's and watching the milky haze they create as it blots out the sunlight. Knowing t the very chemicals will be in the next rain. This has got to be stopped . Please pass this bill , it is of grea importance. Let Texas and New Hampshire be the first in the Nation to enforce the States sovereign rigl govern.

I have been waiting for this bill and I support it for the future of my children and their health. I hope that Michigan follows this exceptional example of true leadership and bravery! Thank you this validates to everyone that has ever been told "your crazy"! A start to a big victory no more crimes to humanity and the natural world!

**Cathy Jackson**

Thank you!!! We need this to pass to start the ball rolling in other states!!!
I watch these sky demons every day covering the sun and spraying toxic chemicals on us and our food. the hell gave these people the right to do this??? Hold these pilots accountable!!!

**Mision Viejo**

Taking inspiration from NH here in VA where we see this every week. We are down to one sun/blue-sky day every so often. Winter skies used to be so pretty, not anymore thanks to this activity
