Dear (Senator, Congressman, Governor) **(Full Name of Senator):**

We are writing to you from CUAG (Citizens United Against GeoEngineering), as we are truly concerned Constituents of **(Name of your State)**, regarding the visible aerosol spraying(s), as a result of Stratospheric Aerosol Geoengineering (SAG,), Solar Radiation Management (SRM), and Weather Modification, which are all a direct result of GeoEngineering. Climate GeoEngineering has been taking place for many years and has been continuous currently to date.

These aerial spraying(s) are producing major air pollution havoc all over the United States including the **(State of _____ , (name of your State)** tri-state areas. This matter is urgent and needs to be seriously investigated, not dismissed or ignored, as the effects of these GeoEngineering programs are causing a major impact upon our atmosphere, our people and our environment. There are thousands of residents all over **(Name of your state, and include two or three neighboring states)**, who together; are all witnessing multiple small aircraft flying and deliberately spraying chemicals throughout our skies.

The many nano particle toxins and heavy metal chemicals produced by these GeoEngineering Programs are being sprayed into our environment, which are polluting our beautiful blue skies. Our skies will start out as a blue sky and as a result of GeoEngineering aerosol sprayings, will turn into a completely visible chemically-laced, pale, dirty grey/white sky. More often, the results of the sky from these aerosol sprayings are clearly visible as a complete "white-out" effected sky. In addition to these programs which are exposing harmful toxins into the air we breathe, the effects from these GeoEngineering Programs are total block out of our sun, (also known as, sun dimming, or SRM - Solar Radiation Management). Our natural Sun plays an important role imperative for survival of our planet, human life, food crops, animals, nutrients, natural Vitamin D, all of which are extremely important sources we get directly and only from the Sun.

In addition, these aerosol emissions, as a result of GeoEngineering Programs, are highly toxic and dangerous metal particulates to humans, animals, plant life, as well as our food crops, our food industry, and our drinking water. It is causing the worst possible environmental conditions, which is catastrophically impacting human health, marine, fish and wildlife as well as economically wreaking havoc. These chemical sprayings(s) are in direct violation of our human rights. Furthermore, these aerial sprayings which are being deliberately sprayed have been proven to linger and are collecting into our atmosphere and the results are spreading unusual biological substances toward the ground. These substances have been tested and have been evidenced to contain metallic based materials including, but not limited to hazardous nano-particulate metals such as fluoride, boride, barium, aluminum, strontium, sulfur, biological components, filaments, and crystals that produce harmful environmental toxins and high mold conditions.

As we are truly concerned citizens of the United States, Constituents and Tax Payers of **(Name of State)**, we are requesting that you please assist us by further investigating these toxic pollutants which are being deliberately sprayed into our air and our skies upon us. We deserve full public disclosure explaining the truth behind the ongoing chemicals and other toxic aerial spraying(s), which have been occurring every day all over the United States, particularly over the **(Name of your state and list two or three neighboring States)** tri-state areas.

We are requesting immediate action from you and Congress as follows:

- 1) Full public disclosure explaining the truth behind the ongoing chemical, biological or other toxic aerial spraying(s) occurring over the United States, other countries and particularly over the (Name of your State) tri-state areas.
- 2) Cessation of all aerial sprayings upon U.S. Citizens
- 3) Enforcement of existing Federal Law which prohibits experimentation upon U.S. Citizens without informed consent and permission.

We attest to one or more of the following: We, as Citizens of the United States have directly witnessed these spraying(s). We have been experiencing adverse health effects from these spraying(s). We have reviewed the latest material from responsible and knowledgeable researches, Journalists and experienced and reputable Sources on the subject. Furthermore, any so-called “official” responses to date, claiming that these aerial spraying(s) are “normal” contrails, are NOT satisfactory.

We conclude that these aerial spraying(s) are real and a violation of human and constitutional rights. GeoEngineering Programs are taking place without the people’s consent. We are asking that it must be stopped immediately!

Please contact **(me, us?)** at _____ ASAP to schedule a time to meet and discuss further so that **(I, We?)** can provide you with more information. **(I, We?)** can be reached at **(please include your contact phone number)**. **(I, We)** am/are looking forward to your prompt attention and response in this important matter. Thank you.

Sincerely,

(Type your Name here) (Sign your name ^ above ^)
