

Global Skywatch

Informal Interview Prep Sheet for *"My Chemtrail Story"*

Thank You!

Chemtrails are affecting the health of so many people today, yet most still don't know the cause.

Your willingness to share your experiences will help many people realize that chemtrails are very real and that they do indeed affect people's health.

In the end, your willingness to participate this way will help people get better sooner and will help motivate more people to work hard to put an end to the spraying.

General Information

Here are some basic points to remember before getting started.

1. If you would like to remain anonymous, then we need to agree on a name to call you during the interview. We can make this decision on the phone before the interview begins.
2. We should do our best to stay on the subject. Most people will be listening to your interview because they want to (a) find out if chemtrails are real, or (b) find out how to protect their health from chemtrails.
3. This is a "G-Rated" interview that will be publicly posted, so please avoid any language that some may find offensive.
4. If you have any special questions that you would like to be asked or subjects that you would like to cover that are not in the interview outline, please let the interviewer know beforehand.
5. Just be normal and relaxed. It's just a conversation between two people that will be posted so others can benefit from it.
6. You may *optionally* send us a picture to be posted next to your interview. It helps people identify with you and makes the conversation more personal when they can see your face. Email the picture to admin@globalskywatch.com.
7. If you have any questions before the interview, just email Russ at admin@globalskywatch.com.

Interview Outline

Following is a general outline of the conversation. It is not necessary to follow this outline exactly. It's more important that the interview feels like a normal conversation between two people.

1. Interviewer Introductions
 - A. Program ID
 - B. Program Purpose

- C. Disclaimer
- D. Introductions

2. Questions (see below).

3. Thank you

- A. Thanks to interviewee
- B. Invitation to others to be interviewed
- C. Invitation to visit Global Skywatch
- D. Thanks for listening

Questions

The following questions may be asked during the conversation, but not necessarily in this order.

- What was your first encounter with chemtrails?
- What first convinced you that chemtrails are real?
- How has your health been affected by chemtrails?
- What makes you believe that your health symptoms are caused by chemtrails?
- Is there anyone else you know who is affected by chemtrails?
How have they been affected?
- What have you done to protect yourself from chemtrails?
- What has been the reaction when you've pointed out chemtrails to others?
- Do you believe that chemtrails are a crime against humanity?
- What would you like to say to public officials about chemtrials?
