Having read [the Directive](#) and [the UAPA](#), please take a moment to petition our government to ban geoengineering from our skies.

We will be delivering this petition in person to 10 Downing Street at 3pm on Monday, 5th May 2014.

Please sign the petition if you haven't already done so. And please use the social buttons on this page to SHARE this petition in these final few days and help us reach 2,000 signatures.

Also, please add weight to the petition by using our [online form](#) to send the Directive to your local MP.

Petition to the UK Parliament to Ban Stratospheric Aerosol Geoengineering and Aerial Aerosol Spraying

FIRST NAME *

LAST NAME *

CITY

POST CODE

To the Parliament of the United Kingdom,

Having read the Directive at <http://cpuk.org/directive> and the UAPA, I hereby demand that the frequent act of aerosol spraying over the United Kingdom be investigated and ended forthwith.

Such geoengineering aerial programmes include the spraying of toxic heavy metals and are destroying the health of humans, animals and plant life alike.

These programmes occur without our consent and are therefore illegal.

I demand that you investigate and ban Aerosol Geoengineering programmes from our skies.

So many people know very little about the effect that HAARP has on the environment. Please keep spreading awareness.

I agree we need to go after HAARP as it is likely that the spraying of particulate matter into the atmosphere is at least partly to do with the propagation of standing waves from the HAARP technology. Apart from the sickness that many people are experiencing from the spraying it is likely that the HAARP is also causing illness as that is one of its uses. It makes sense that while the HAARP is being used to cause bad weather it will also be causing health problems as a side effect. Migraine things like that in the short term and other more serious problems in the long run.

I agree we need to go after HAARP as well because these are basically working hand in hand. HAARP can cause earthquakes, change the Jet Stream, Tidal waves etc., Scientists in the USA have demonstrated how it works.

I believe this makes those involved culpable and guilty under International Law!!

The ten points of the Nuremberg Code[edit source | editbeta]

The 10 points are, (all from United States National Institutes of Health) [2]

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him/her to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.
2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.
3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results will justify the performance of the experiment.
4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.
5. No experiment should be conducted where there is a prior reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.
6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.
7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.
8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.
9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.
10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

Thank you Stuart, we believe you are correct. It seems by denying that the spray programs are real and carrying them out behind their secrecy act for so called security, they believe they are immune to prosecution. It is necessary for international lawyers to take this to court to stop this crime

I am one of the organizers of the upcoming chemtrail common law court case. Rather than think about creating two separate cases, I think it might be best if we all worked together in the same court. This is an international issue, so people from all over the world can participate if they are interested.

We are gathering names of people that want to be participate in the chemtrail common law court. People can participate as citizen jurors or in some other way — depending on what their interest is. Once we have gathered enough names, we can start the interview process to determine who is best suited to participate in the court.

One thing that might be useful for you to do is to read through the Common Law Community Training Manual so you can better understand the steps involved in creating this court. You can find the Manual here: <http://itccs.org/the-common-law-and-its-courts-a-community-training-manual/>

Do let us know if you are interested to participate and perhaps be a citizen juror. I will keep your information on file and be back in touch with you when the interview process is ready to commence.

Thanks again for reaching out. Wishing you all the best,
Jeanice

Hi Marie. We are in the process of updating the Directive and the printed version of the Petition. Everyone is working on a voluntary basis so please bear with us and we shall notify all when we are ready to publish it for a mass action request to the general public. In the meantime we do have the original Directive to Ban Geoengineering via the UAPA which qualifies as a petition when signed. Go to the Directive tab and download the documents for your hard copy. Print it out and send it to your MP using the Royal Mail Signed For service which includes proof of delivery and a signature on delivery. Please inform us and we can make a note that your MP has been notified and once all MP's have received the Directive we will March To Downing Street to hand it to the Prime Minister. Thank you for your efforts, together we can do this.

Hi there Ian,
thanks for downloading the Directive and yes, please do sign the UAPA, add your personalised cover letter and send it to your MP using the Royal Mail Signed For Service which includes proof of delivery and a signature on delivery. Please inform us and we can make a note that your MP has been notified.

If you go the to the Take Action tab and click on the Directive Database at <http://www.uk-skywatch.co.uk/Take%20Action.html> we will notify uk-skywatch that you have mailed it and they will mark it as submitted on their database. Do encourage anyone else you know in other/surrounding constituencies to do the same.

Once all MP's have received the Directive we will March To Downing Street to hand it to the Prime Minister personally!

We are updating The Directive and have made a note about your comment about HAARP!

Thank you for your efforts, together we can do this.

Yes Jen, thanks for asking! The LONDON PEACEFUL GATHERING Against CHEMTRAILS and GEO-ENGINEERING, will gather at Richmond Terrace London SW1A 2Jl nearest Tube, Westminster. The UK Government is at the advance stages of regulations to try and force the toxic geo-engineering program into open practice. This is so important whilst we still have the abilities to unite together and expose the truth and take responsibility as human beings united together to stop this awful program. Please get T- shirts from <http://www.uk-skywatch.co.uk>, make banners, placards and arm yourselves with the verifiable facts. Get rain water analysis and hair samples, club together for tests in your region. Rain water analysis £28 from <http://www.chemtrailsprojectuk.com>, ...we the people dare to share the facts, everywhere with everyone. PEACE 4 ALL Please Make Banners.. Good to see a steady increase of the petition signing, already a few hundred since I signed .

I think rather than just stating that we want it banned, we need a statement from someone about what is being sprayed and for what purpose, even though we already know quite a lot from mainly the incidents in the USA.

Someone needs to be told that even if they think they are acting in our best interest, it is not their world.

Yes we need more whistle-blowers and once they stop denying it is in effect we could move along a lot faster... Evidence is building and new websites are starting to expose this crime.

I have signed the petition and wrote a long letter to my local mp in corby northants... as more of us are waking up to such issues I think as a group of individuals it is up to us to let as many people know about chemtrails and physically show them the evidence in the sky most days of the week

Chemtrails Project UK • 11th December 2013 at 5:10 pm #

[Reply](#)

Hi Adrian, yes we think you are right. Because mainstream media is not alerting us to many ecocidal programmes being perpetrated upon us without our consultation and consent, it is almost a moral duty to take an issue that is meaningful to us and do something positive to make a change, little and often. All the amazing websites have a take action page suggesting leafleting and talking, showing movies and writing to MP's are all ways to do this.

Thanks for your comment and all you do.

This is the reply to MP petition

Dear Mr Britton,

Thank you for your email regarding 'Stratospheric Aerosol Geoengineering and Aerial Aerosol Spraying'.

This is clearly an area where it is difficult to get reliable information about what is or is not happening, so I will be happy to raise your concerns with the Department for Energy and Climate Change to see if any aerial spraying is being undertaken with their authority. I will contact you again when I have a response.

Best wishes,

Yours sincerely

Steve Webb MP

Thank you so much for emailing your MP, due to seeing other similar responses, we expect a very generic reply of denial and we have written some questions to further dispute their stonewalling. These can be found on our status page: <http://www.chemtrailsprojectuk.com/take-action/directive/status/>

We advise that you respond with these questions or some similar and let us know any response you receive via our contact page found here.. <http://www.chemtrailsprojectuk.com/about-us/contact-us/>

Thanks again, good luck and do let us know how it goes.. Once a response is received, we advise that you make an appointment with your MP, to take your own photographic and video evidence, along with a rainwater test results if you have any and further talk with him about your concerns.

We expect to have this issue raised in Parliament via an Early Day Motion or otherwise, so do keep your MP onside as if and when it comes time to vote.. you MP will have the right facts and his own personal awareness to make the right decision when it comes to stopping this crime.

I have spotted two things that need looking into which people may already know. The chemtrails seem to be spread over towns and cities and not in the country, this may mean that the agenda 21 population reduction is the aim as why would they not spray over the countryside if this was weather modification to stop global warming. The elites lie so they can carry out their hidden agendas and this is very scary. You can also look in the sky on the same day and see one plane without anything coming out of the back right next to another that has a thick chemtrail cloud that expands and stays in the sky. Chemtrails are real people need to wake up and look at the UN's agenda 21 which lists humans as the enemy of the environment and the planet!

Chemtrails Project UK • 4th April 2014 at 1:35 pm #

[Reply](#)

We have noticed them in the country and surmise it is a programme to attain more than one end.

Mark • 10th March 2014 at 11:25 am #

Also look at GMO this is another agenda 21 directive – see the film Seeds of death on Youtube – The UK has now allowed GMO seed into the food supply and all the supermarkets except waitrose admit that they cannot source supplies that are GMO free. This is a massive scandal as rats and animals that were fed GMO's died within weeks and it also poisons the environment destroying organic farms as the GMO seed is blown into other farms. When are children are older there will be no organic food and we will be forced to eat GMO which also causes sterility in following generations – agenda 21 population control – do not trust your governments.

Please stop spraying our land with anything. All those complicit in geo-engineering & weather warfare need to be dragged through the streets & then locked up & forced to eat GMO's & processed food for the rest of their days. The cheap stuff that the poor are being forced to eat just now because it is all they can afford.
