

WORLD METEOROLOGICAL ORGANIZATION
Tenth WMO Scientific Conference on Weather Modification
(Bali, Indonesia, 4-7 October 2011)

THIRD ANNOUNCEMENT

From the time of the last Announcement, WMO has collected 108 extended abstracts. The Conference Scientific Committee evaluated the abstracts and rejected 12 abstracts. By the deadline of 15 August, authors have received notification on acceptance of the submitted papers. Due to budget restrictions, only a limited number of authors are offered to get WMO partial support to attend the meeting.

Based on accepted papers, the Committee has developed the Conference Programme, consisting of invited, oral and poster presentations. The Programme is posted on the WMO Conference web page. The Program also includes one after-dinner session on geo-engineering scientific issues. Before the meeting start, WMO will publish the Conference proceedings, but will also provide a certain number of memory sticks with the proceedings at the meeting.

The host of the Conference, the Indonesian Agency for the Assessment and Application of Technology (BPPT) will provide poster stands outside of the conference room. The format of posters should be A1. In the same conference area, the host will provide several exhibition booths for companies/organizations intending to promote their programs and products.

Those still planning to register for the Conference: please do not miss the deadline of **5 September**.

We want to repeat the information that those needing an invitation letter should receive it from the Conference host, following instructions posted on <http://ina-wxmod.com/conference/>.

Venue of the Conference, Hotel Sanur Beach Bali

Contact person in the WMO Secretariat: Dr Slobodan Nickovic (SNickovic at wmo.int)
