Michael Castle

EXPOSING AND COMBATING CHEMTRAIL CRIMES AGAINST HUMANITY

As an environmental scientist (and former pilot), Michael Castle became keenly aware of the particulate pollutants that were (are) being dispersed into our 'air column'. He and others, like Cliff Carnicom, analyzed many samples over the years concluding that aerosolized chemical streams are contaminating our environment, being used to manipulate our weather and are disrupting our natural biological systems.

See Carnicom documentary *Aerosol Crimes*: <http://www.youtube.com/watch?v=bmYyvk9Lp-A>

Michael Castle's professional qualifications:

Mike is a Certified Environmental Risk Auditor. Environmental Risk Auditors conduct Environmental Phased Assessments for national lending institutions, industry and environmental organizations. These assessments are comprised of sub-surface investigation, geologic interpretation, and core drilling/soil water matrix sample analyses. Per US EPA protocol's, the Environmental Phased Assessments also include the development and preparation of investigative scope-of-works, and corrective action, remedial action and site post-closure plans.

Mike Castle is a practicing industrial polymer chemist with US Patents in coatings and adhesives. He developed synergistic co-train treatment's that are utilized in-situ with bacteria to achieve the remediation and clean-up of Hydrocarbon contaminants in soils and groundwaters. These contaminants include Polychlorinated BiPenyls (PCB's), PolyNuclear Aromatic's, and /inorganic environmental pollutants. Dr Mike also co-developed a remedial process

contaminants referred to as biointegration – for groundwaters and contaminated geologic formations occurring microbes to remediate the subsurface

Mike has also discovered many health, environmental face dealing with our toxic environment.

5 RESPONSES TO "MICHAEL CASTLE"

Carol Wilson | [July 17, 2010 at 7:54 p07](#) | [Reply](#)

Do you have instructions for building the orgone generator? I listened to you on the power hour and really enjoyed hearing you speak.

[anticorruptionsociety](#) | [July 18, 2010 at 7:54 p07](#) | [Reply](#)

We posted instructions for the Orgone Accumulator on Dr Castle's page. It is listed on the Papers and/or files group.

oscar | [July 12, 2010 at 7:54 p07](#) | [Reply](#)

I also heard you on the power hour, I just ordered the willard xxx, I want to try it out on myself and my dogs. you also talked about making wood like material? can anyone make it? If so are you going to share?

Phyllis | [July 10, 2010 at 7:54 p07](#) | [Reply](#)

HI Dr. Mike;

I had heard you on the power hour. I would like to know how to build the orgone generator, as well. Lately, I have been thinking there has to be a way to use magnets to generate power. Then I started reading a book called "Babylons Banksters: and there are refereces to other forms of energy. I haven't reached to part where these forms are described, but it all seems to far fetched to believe. Then yesterday on The Power Hour you were talking about other ways to make energy. Thank you for helping to open my mind. I can't wait for the formula to create an orgone generator.

Robert | [July 9, 2010 at 7:54 p07](#) | [Reply](#)

I am listening, right now on the power Hour. I would like to know about building the Orgone generator.

Thanks
