

Shelby County Airport (Alabama)

From Wikipedia, the free encyclopedia

Shelby County Airport (ICAO: **KEET**, FAA LID: **EET**) is a public use airport located four nautical miles (7 km) southeast of the central business district of Alabaster, a city in Shelby County, Alabama, United States. It is owned by the Shelby County Commission.^[1] The airport is situated in the city of Calera, Alabama.^[2]

This airport is included in the FAA's National Plan of Integrated Airport Systems for 2011–2015^[3] and 2009–2013,^[4] both of which categorized it as a *general aviation* facility. This was a change from the 2007–2011 NPIAS Report, when it was categorized as a *reliever airport*.^[5]

Although most U.S. airports use the same three-letter location identifier for the FAA and IATA, this airport is assigned **EET** by the FAA but has no designation from the IATA.^[6]

Facilities and aircraft

Shelby County Airport covers an area of 125 acres (51 ha) at an elevation of 586 feet (179 m) above mean sea level. It has one asphalt paved runway designated 16/34 which measures 5,000 by 75 feet (1,524 x 23 m).^[1] The runway runs parallel to adjacent Interstate 65. The airport has its own interchange on that highway.
